SERENADE® MAX – Proven Control of Alternaria and Canker

SERENADE® is proven effective for battling all major citrus diseases including alternaria and canker! Derived from *Bacillus subtilis* and powered by biochemicals called lipopeptides, SERENADE has a complex, multi-site mode of action which destroys disease pathogens while also managing resistance. Recent successes in

Florida grower demos show the use of SERENADE MAX with copper enhances the control of canker*. Bacterial canker of citrus can quickly destroy an entire grove. Save your trees with canker protection from SERENADE MAX.
