

Features and benefits

- Features multi-site biochemical modes of action which destroy pathogens from inside out and offers growers an excellent resistance management strategy
- Excellent food safety ratings with 0-day PHIs and exempt from residue tolerance
- Provides high degree of worker safety with 4-hour REI
- Excellent tank-mix and rotational partner
- No CODEX restrictions for international sales of treated commodities
- OMRI Listed
- Can be used for conventional and organic production

with SONATA®

SONATA® – Proven Control of Powdery and Downy Mildew on Cucurbits

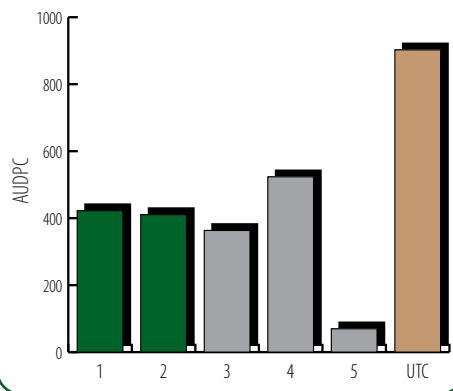

SONATA® delivers long-lasting Powdery and Downy Mildew control with the added value of resistance management. By disrupting pathogen cell wall formation with a novel mode of action, the biochemical active ingredient in SONATA – derived from *Bacillus pumilus* – provides

effective control while extending the life of your chemical program. Unsurpassed in worker and food safety, SONATA offers a 4-hour Restricted Entry Interval and is exempt from residue tolerances. Add SONATA to your program today, and see what a difference biochemistry makes.

SONATA VS. POWDERY MILDEW ON WINTER SQUASH

S. Miller, Ohio State University
Wooster, Ohio - 2006

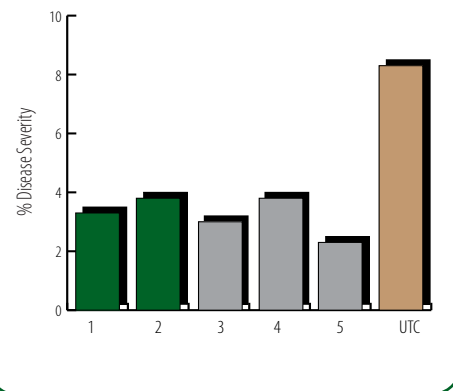

1 - SONATA 2qt + Previcur 1pt
SONATA 2qt + Manzate 1.5lb
2 - SONATA 2qt + Previcur 1pt
Bravo WS 2pt + Manzate 1.5lb
3 - Bravo WS 2.8pt
Quadris 11oz

4 - Ranman 2.75oz + Silwet
Bravo WS 1.5pt
5 - Microthiol Spec. 80WS 4lb
Quintec 4oz
Nova 40W 4oz
Gavel 2lb + Dithane 1.2lb

SONATA VS. DOWNY MILDEW ON CUCUMBERS

D. B. Langston, University of Georgia
Tifton, GA - 2006

1 - SONATA 3qt + Previcur 1.2pt
2 - SONATA 2qt + Previcur 0.6pt
3 - Manzate 75 2lb

4 - Bravo WS 2pt
5 - Previcur 1.2pt + Manzate 2lb,
Tanos 8oz + Bravo 2pt

SONATA for Powdery Mildew control

2 - 4 qt.
per acre

Begin application soon after emergence or transplant when environmental conditions and plant stage are conducive to disease development. Repeat on 7 to 14 day intervals or as needed. Use higher rates and short application intervals under heavy disease pressure.

Can be used for Conventional & Organic Production
